ABOUT DATALINK NETWORKS

Based in Santa Clarita, California, Datalink Networks is a passionate leader in IT services and solutions, serving schools and businesses throughout the United States. We are a Microsoft Gold Partner and have been rated best IT Services in Southern California. Our staff is experienced, dedicated, and cares about delivering great service at a great value.

We are working towards providing schools across the country with services such as the implementation and integration of Microsoft Teams. We believe that Teams is at the forefront of virtual learning and incorporates valuable educational tools with programs already implemented. We strive to serve as many schools as possible to assist in creating a smooth educational experience.

EDUCATION TECHNOLOGY THAT WORKS

Information technology should *facilitate* the education processes. Imagine students and educators seamlessly interacting, assignment completion and grading, and monitoring of students progress to determine if additional support is needed- all in the same virtual space.
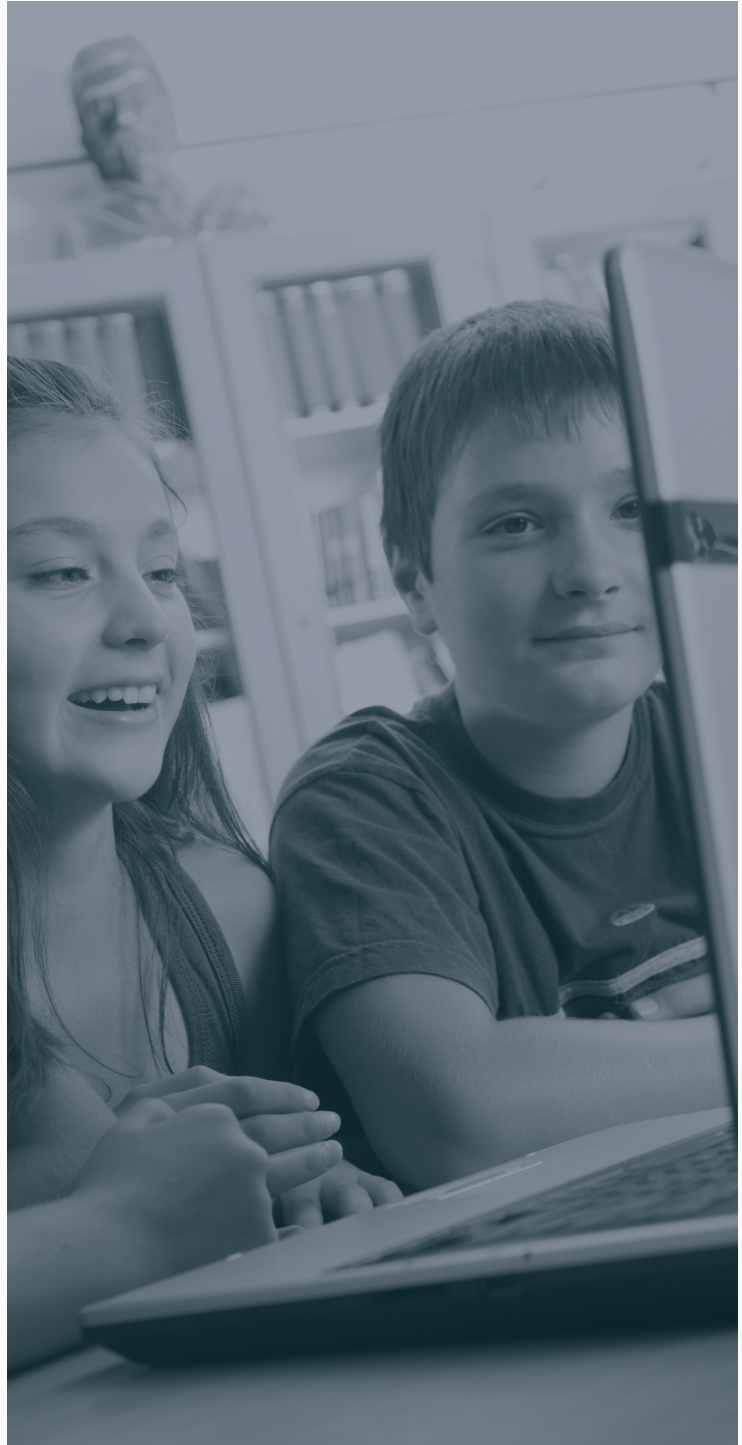

INTRODUCTORY OFFER

Enable your students and faculty to collaborate with ease and engage in learning by making Microsoft Teams your trusted web conferencing, collaboration, and file sharing tool.

As a Microsoft Gold Partner, Datalink Networks specializes in serving K-12 organizations with key technology services, including Microsoft Teams migration services. Begin your school's journey on Microsoft Teams by receiving our complementary trial offer.
