

MICROSOFT AZURE READINESS ASSESSMENT

Ready to Optimize Your Cloud Migration?

Migrating to Azure does not have to be overwhelming for your IT team. With the Datalink Networks Azure Readiness Assessment, you will receive the deliverables and recommendations you need to construct a strategic migration plan that will meet your organizational requirements and budget.

Deliverables

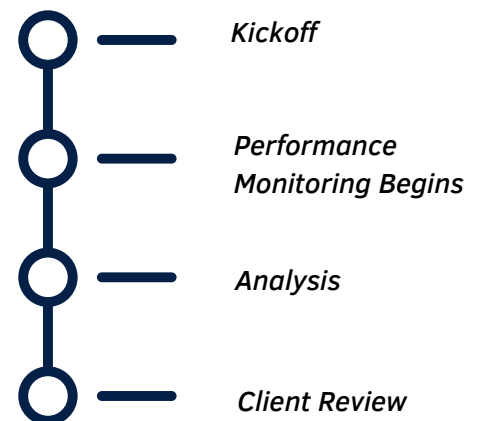

At the end of this engagement, you will receive a comprehensive report including:

- *Executive Summary Including TCO Study*
- *Cost Analysis of Current Environment*
- *Optimized Cloud Sizing Profiles*
- *Phased Migration Plan*

What You Can Expect

We will carefully assess your resource capability, utilization and licensing in addition to your workload dependencies and the nuances of your network. You will gain insight on all future costs and how your company will benefit from moving to the cloud.

3 Week Process
