

# Copilot for M365 Optimization Assessment

Assess your organization's progress in adopting AI

## Goal

The Copilot for M365 Baseline Optimization Questionnaire aims to assess your organization's readiness to embrace Copilot for Microsoft 365.

## Four Lenses

- 1. Organizational Profile:** Identify business cases in relevant departments that can be supported by Copilot for Microsoft 365.
- 2. Productivity and Collaboration Tools:** Ensure usage of tools and services that align with Copilot capabilities.
- 3. Data Security and Governance:** Implement necessary controls to meet organizational and regulatory requirements.
- 4. Copilot Eligible Users:** Snapshot of users who meet prerequisites for immediate Copilot adoption.

## Results

The survey's answers will help to produce a series of scores and a recommended deployment path that can help to provide a snapshot of organizational readiness to adopt Copilot for Microsoft 365 and guide the subsequent planning and rollout.
